01 VISION

*"Moderation is a fatal thing.
Nothing succeeds like excess!"*
Oscar Wilde

Setting sail today is the fulfilment of other desires, new approaches. Sailors now sail in many ways. Catamarans follow this trend more than ever: a 360° sea experience.

EXCESS embodies this vision and meets the new demands of aesthetics and simplicity, reflecting an active and spontaneous lifestyle trend of city dwellers searching for escape and outdoor sports.

02 RANGE

XCS
Excess

EXCESS 11

The **Excess 11** is the only large-scale production boat on the market for this size of catamaran. She is one of the smallest cruising catamarans capable of offering so much comfort and space, not to mention the thrill of sailing.

SUMMARY

02 RANGE

EXCESS 12

The **Excess 12** adopts a marked chine and a pronounced deck sheer, creating unique lines. Her twin helm stations, located aft, offer a maximum of sensations and create a more seamanlike concept that brings us closer to the sea. The light and precise helm and the opening bimini are reminiscent of the pleasures of helming a monohull.

SUMMARY

02 RANGE

EXCESS 15

With an area of 125 m² (1,345 sq ft) and her 25-meter (82') high mast, the **Excess 15** is the largest in the new Bénéteau Group family. In addition to her large spaces, this boat has twin helm stations, located at the after end of each hull, which are designed to increase the pleasure of sailing.

SUMMARY

03 EXCESS LAB

MANIFESTO

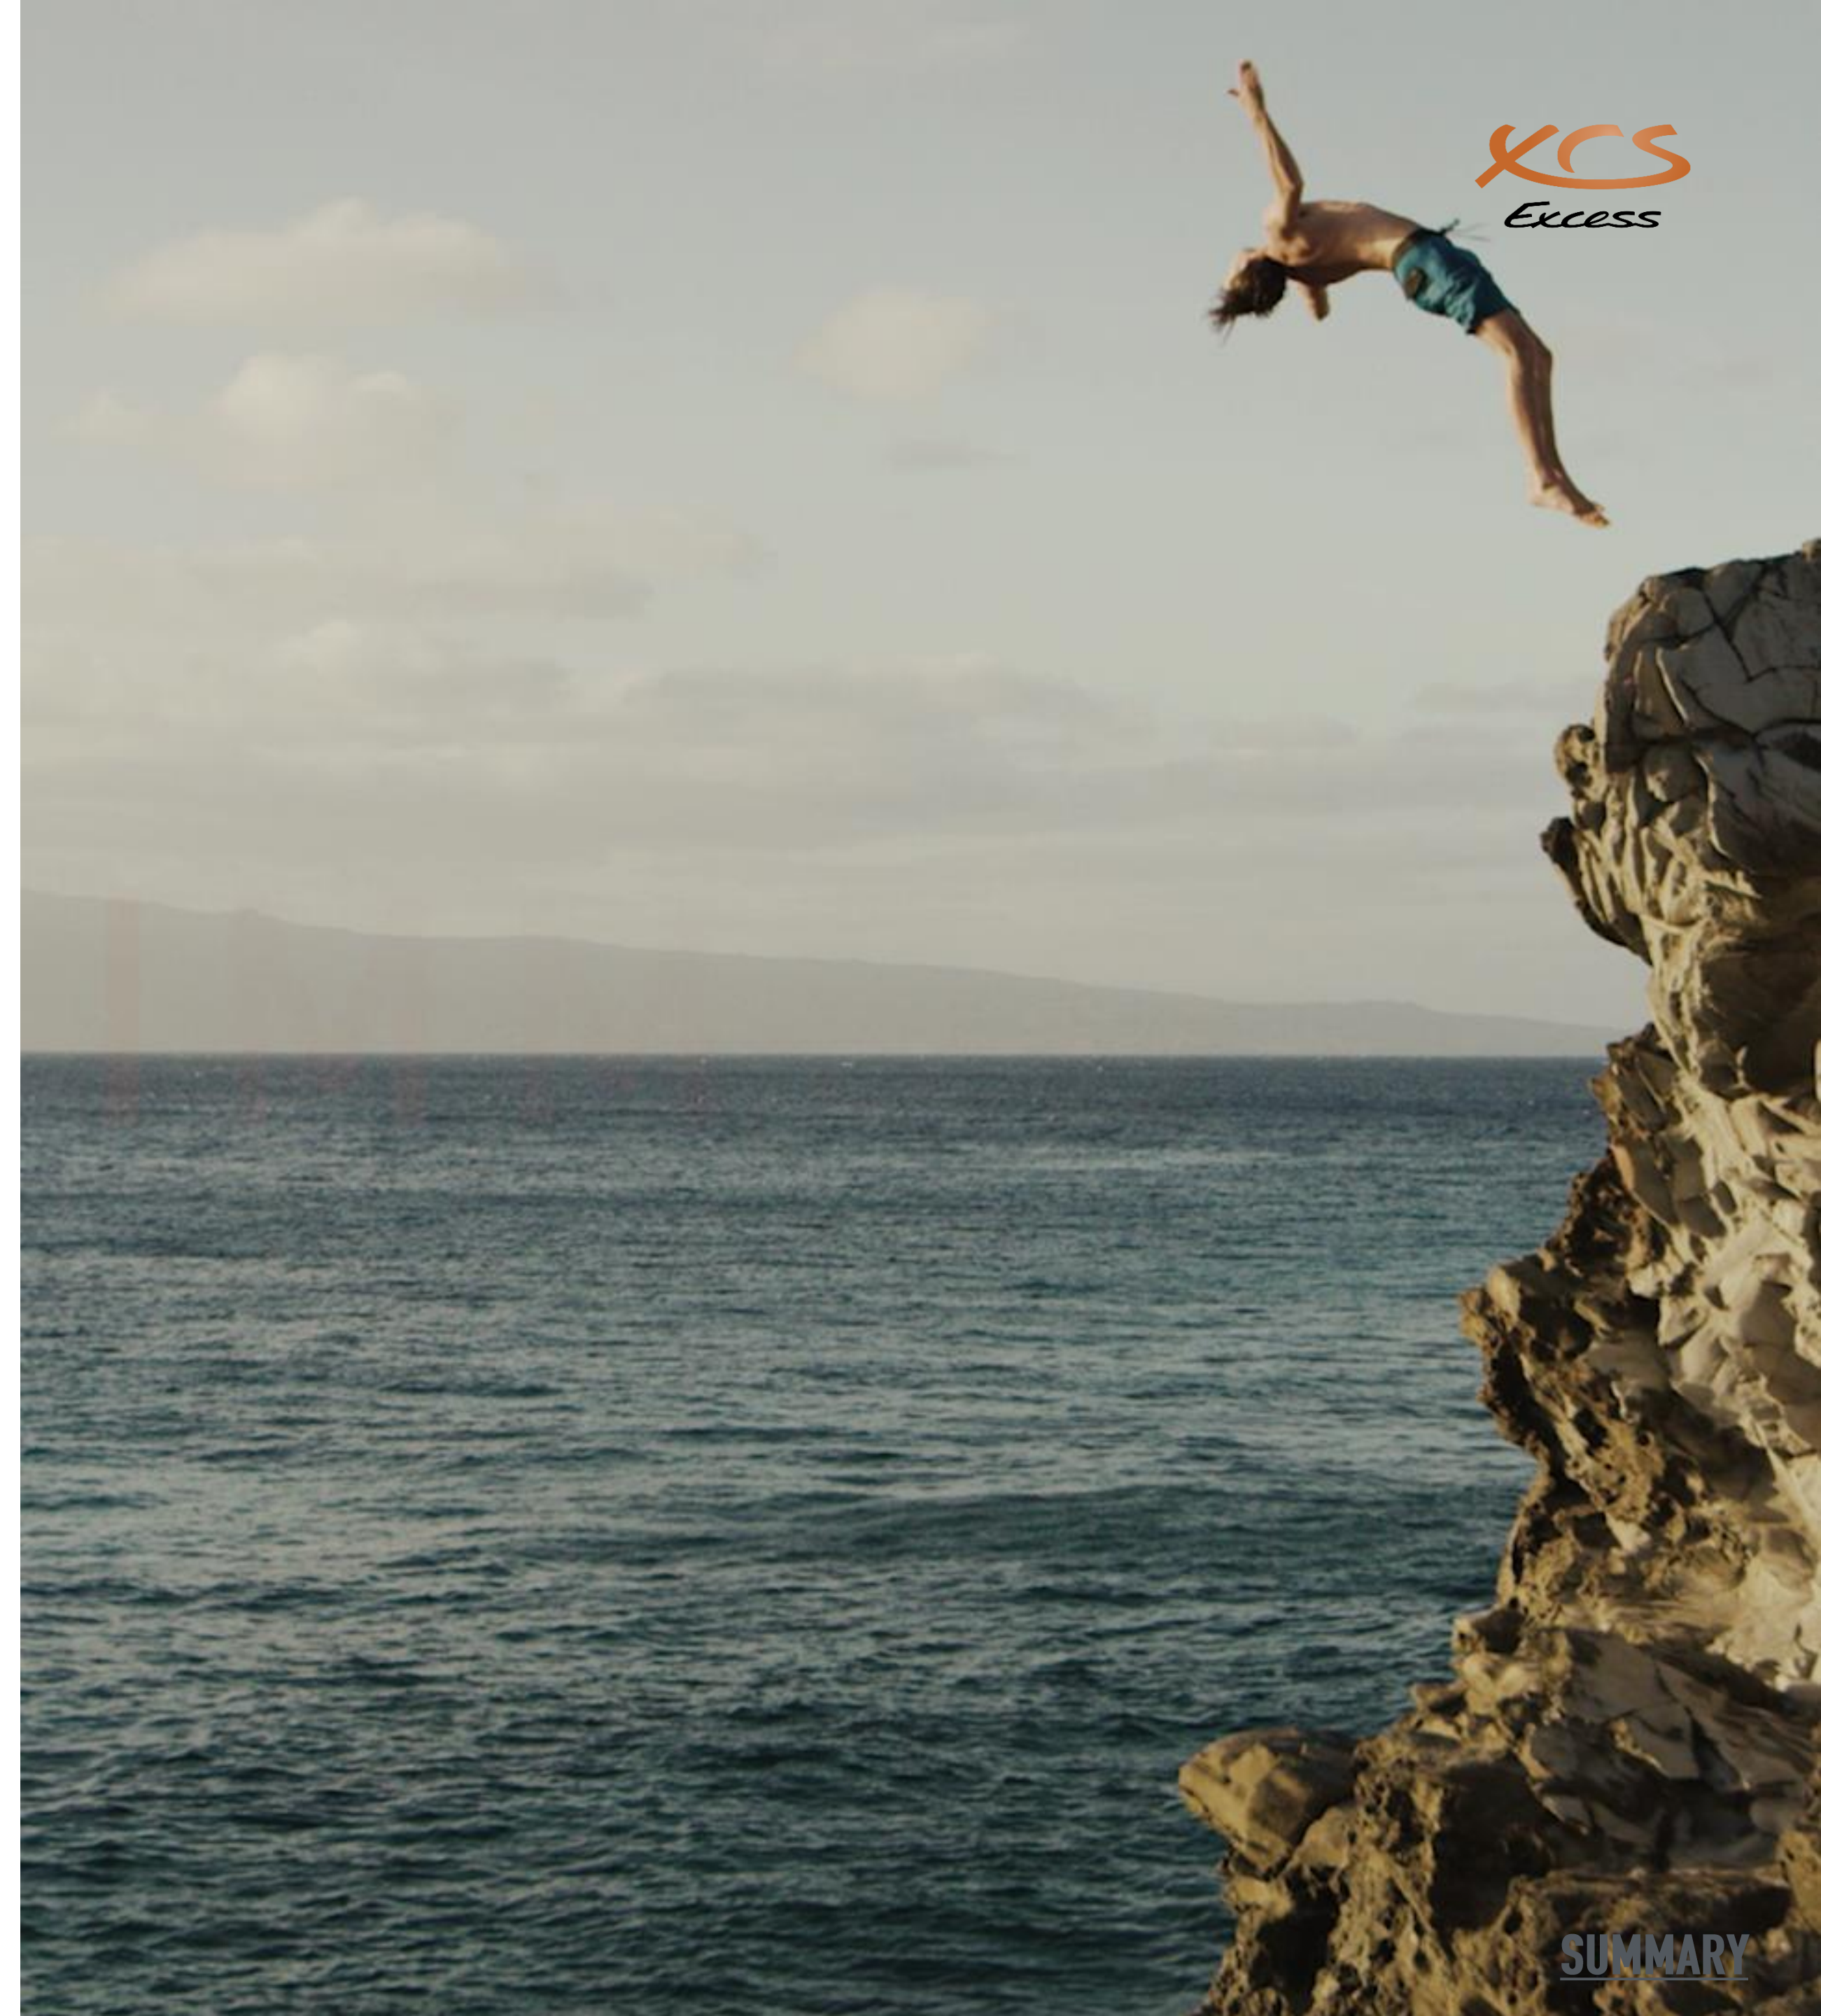

The Excess Lab gives **the opportunity to join our Design Team**, to **interact with our specialists** and naval architects. The participants will discover the features they are currently working-on and will **invited to participate in the decision making process** when selecting the options we will feature on our next Excess catamarans.

The Excess Lab **also allows to post your suggestions** and to share the topics they would like our Team to investigate or develop.

"We are convinced that connecting you, sailors, with our professional team will be an enriching experience for all. It will be rich of learnings for us, no doubt. We certainly hope that it will be enriching for you too!"

TORQUEEDO

[DO YOU WANT MORE?](#)

Torqueedo

Torqueedo is the market leader for electric mobility on the water. Founded in 2005 in Starnberg, the company develops and manufactures electric and hybrid drives from 0.5 to 100 kW for commercial applications and recreational use.

06 TORQUEEDO

Excess innovates with its hybrid Excess 15 project

Excess introduces at the Cannes Yachting Festival the first hybrid Excess 15 equipped with Torqueedo's flagship Deep Blue Hybrid system. With such an innovative project managed through the "Excess Lab", Excess is taking a distinctive first step within the catamaran market towards more sustainability.

A peaceful experience

Aboard the Excess 15 with Deep Blue Hybrid, owners will enjoy all onboard luxuries without the noise and fumes of a running generator in good sailing weather.

06 EXCESS OWNERS

There are Excess catamarans sailing all over the world!

Here are some owners who sail on Excess and share their experience.

@sailingbombarda

Lizzy and Marco, thirty-something entrepreneurs, originally from Amsterdam have decided to set off for a year to travel the oceans aboard their Excess 11 christened "Bombarda".

@sy_binx

Mack Storey had a dream: to sail around the world with his family aboard their Excess 15, BINX. However, the health crisis forced them to adapt their plans, and they ended up completing their semi-circumnavigation in record time.

A SEMI-CIRCUMNAVIGATION IN UNDER 6 MONTHS!
